MicroLogic Active Control Unit made of Green material (according to SE definition)

MicroLogic Active control unit is **RoHS and REACH compliant**

- Transparent environment information
- Life Cycle Analysis, compliant with ISO14025
- End of life instructions

Improve an existing offer to act for the climate → Decrease resources' consumption

Resource

Green Material

- Plastic made of at least **20% bio-based** content in compound
- **>50%CO2 eq. saved** on CO2 manufacturing of the plastic parts based on supplier data compared to same virgin material

Sustainable packaging

- **Sustainable cardboard:**
 - Minimum of 70% recycled content
 - Brown natural color to avoid whitening process
- **Single Use Plastic Free**

Energy efficiency

- Functions and electronic consumption optimized to answer functional sufficiency compared to previous generation
- Reduced energy consumption by 70% compared to previous generation
(82 Kg CO2 eq. based on 15 years of the product use)

Maintenance & Upgradeability

- Battery front face accessible for maintenance and end of life management
 - Control unit compatible with MasterPacT NW/NT to extend lifetime
 - Maintenance indicator to deliver maintenance in the right time to ensure the performance over lifetime
 - Remaining lifetime indicator for breaker and control unit display directly to customer
- Transformer efficiency function to help implementing actions to reduce energy losses

Product selector

To simplify and expedite the ordering of MasterPacT MTZ, four new tools are introduced:

- **Product selector:** An online software tool embedded in Schneider website or in distributor's website to help selecting the right product with its accessories.
- **Product Code:** An alphanumeric code representing the selection of a MasterPacT MTZ circuit breaker. It simplifies the way to communicate the selection of a MasterPacT MTZ circuit breaker during ordering, sharing information and asking for help remotely.
- **MySE:** online ordering platform of Schneider for partners, offering most of our products.
- **Standard Fixed configuration**

Product selector

Product Selector aims at providing a fast, secure and smart way of selecting products. It includes the selection of the basic frame, control unit, accessories and Digital Modules. Compared with the traditional way of filling up order forms or specifying customer functions, it brings the following benefits:

- **Easy access:** no login, direct access on Schneider website or on distributor's website
- **Reliable:** compatibilities between core product and accessories are constantly tested
- **Wide coverage:** more than 130 ranges from Schneider are available (MasterPacT, ComPacT, TeSys, Acti 9, Altivar...)

MasterPacT MTZ product code

MasterPacT MTZ Product Code is an alphanumeric code representing the complete selection of a MasterPacT MTZ circuit breaker. It will be automatically generated for each MasterPacT MTZ circuit breaker after completing the selection through Product Selector. It will appear in the invoice and delivery documents as well as the labelling on the MasterPacT MTZ circuit breaker and the packaging.

MasterPacT MTZ Product Code brings the following benefits:

- Quick and unique identification of the initial selection of a circuit breaker can be achieved by reading the code on the physical products or other recordings
- Reordering of the same MasterPacT MTZ circuit breaker is simplified by communicating selection through product code
- Recording or sharing information about the initial selection of a circuit breaker is simplified
- Details of the coding rules can be accessed through CCC and there are some of the highlights:
 - All options of accessories are coded.
 - The minimum length of the code is 9 characters and the maximum length of the code is 33* characters depending on the choice of the accessories.
 - Capital letters, numbers and start sign ^[1] are used.

[1] The maximum length of the code may change due to future enrichment of the offer.

An example of MasterPacT MTZ product code

- MasterPacT type: MTZ2
- Rating: 1000 A
- Sensor rating: 800 A

Circuit breakers

A MasterPacT fixed circuit breaker is described by 4 catalog numbers corresponding to:

- The basic circuit breaker
- A control unit
- A top connection
- A bottom connection.

A communication option and various auxiliaries and accessories may also be added.

Each chassis comes equipped in standard with the terminal blocks corresponding to the customer functions below:

- The basic device: OF1, OF2, OF3, OF4, SDE1, UC3 (UC3 for 3P chassis only, not for 4P)
- The MicroLogic control unit: COM, UC1, UC2
- The 5 most common accessories: MN/MX2, MX1, XF, PF, MCH.

Additional terminal blocks

If the device is equipped with one or a combination of the following 3 additional accessories:

- SDE2/RES
- PTE

all the necessary chassis terminal blocks are coded by one of the part numbers below:

Circuit breakers

A MasterPacT fixed circuit breaker is described by 4 catalog numbers corresponding to:

- The basic circuit breaker
- A control unit
- A top connection
- A bottom connection.

A communication option and various auxiliaries and accessories may also be added.

Basic circuit breaker ≤ 4000 A.

Basic circuit breaker ≥ 4000 A.

MTZ2 08 to MTZ3 63 drawout circuit breakers

Circuit breakers

A MasterPacT drawout circuit breaker is described by minimum 5 catalog numbers corresponding to:

- The basic circuit breaker
- A control unit
- A chassis with standard terminal blocks
- A top connection
- A bottom connection.

A communication option and various auxiliaries and accessories may also be added.

Basic circuit breaker + chassis ≤ 4000 A

Basic circuit breaker + chassis ≥ 4000 A

[1] Select a 4P basic circuit breaker with neutral on the right page H-31. All other catalogue numbers are unchanged.

Chassis terminal blocks

Standard terminal blocks

Each chassis comes equipped in standard with the terminal blocks corresponding to the customer functions below:

- The basic device: OF1, OF2, OF3, OF4, SDE1, UC3 (UC3 for 3P chassis only, not for 4P)
- The MicroLogic control unit: COM, UC1, UC2
- The 5 most common accessories: MN/MX2, MX1, XF, PF, MCH.

Additional terminal blocks

If the device is equipped with one or a combination of the following 5 additional accessories:

- SDE2/RES
- PTE
- 1st additional 4 OF block
- 2nd additional 4 OF block

all the necessary chassis terminal blocks are coded by one of the part numbers below:

Chassis terminal blocks for 8 OF contacts	LV839471
Chassis terminal blocks for 4 OF contacts	LV839472

MTZ2 08 to MTZ3 63 circuit breakers with neutral on the right Circuit breakers

A 4 pole MasterPacT circuit breaker with neutral on the right is described by the same catalog numbers as a standard 4 pole one, except for the basic circuit breaker, which is specific.

Basic circuit breaker.

Basic circuit breaker + chassis.

Fixed circuit breakers with neutral on the right
